

A Word of Warning

War conditions and the new government revenue bill will soon increase the already advanced cost of ladies' suits.

War Taxes!

We have the distinction of carrying the largest stock of woollens in the southwest. This gives our patrons a large variety of patterns to choose from. We invite your early inspection of our display.

CHARMEN NAMED IN NEW LIBERTY DRIVE IN STATE

State Chairman McClung Has Everything In Readiness to Put Arizona Over Top to Back War Work

"Organization all complete. Every worker standing 'to arms,' ready for the opening gun on the morning of the 28th.

"Welcome the Fourth Liberty loan. Arizona has never hesitated. Her men at the front in France are in the thick of the fighting. Her men at home are ready to enter the battle of Liberty bonds," so said State Chairman H. J. McClung of the Fourth Liberty loan campaign for Arizona yesterday.

"There are nine counties in this district, and in every previous campaign each county has done all it has been asked to do. That means that every county can be counted upon for the fourth campaign. We have received very encouraging reports from several counties already. There is a splendid willingness to carry the work along in the most complete way, to leave nothing undone that will help the campaign to attain the highest point of success. I am sure that when a week actually commences we shall find an enthusiastic spirit which will surely spell victory.

"County chairmen for the coming campaign are the same men who worked so effectively in the campaign for the third loan in May-June this year, when Arizona established a record in the whole United States. We are asked to do much more this time, but I am sure that there will be no question about the outcome. We must win.

"I wish through the press of the state, at this time, to again express my personal appreciation of the courtesy and considerate co-operation extended to the officers of the Third Liberty loan organization in Arizona. The help which we have had in the past will, I know, be continued for the future. Especially has the press itself been thoroughly loyal and liberal in its support of the Liberty loan campaign and its advertising needs.

"We are fortunate at this time in having in each county a county publicity director, selected from among the best men in the newspaper life of Arizona. The county chairmen are as follows:

"W. P. Love, Apache county, St. Johns.

"E. Pollock, Coconino county, Flagstaff.

"J. R. Todd, Gila county, Globe.

"Joseph R. Loftus, Maricopa county, Phoenix.

"J. H. Rosenberg, Mohave county, Kingman.

"D. J. Thomas, Navajo county, Holbrook.

"J. S. Cates, Pinal county, Ray.

"S. Vele, Yavapai county, Prescott.

"J. H. Westover, Yuma county, Yuma.

"While the publicity directors who are to handle the advertising material are as follows:

"Fred W. Nelson, Apache county, St. Johns.

"J. S. Breen, Coconino county, Flagstaff.

"J. H. Hammill, Gila county, Globe.

"Jay M. Gates, Mohave county, Kingman.

"G. M. Braxton, Navajo county, Holbrook.

"J. S. Cates, Pinal county, Ray.

"P. R. Milnes, Prescott district, Yavapai county, Prescott.

"Ernest Douglas, Jerome district, Yavapai county, Jerome.

"J. H. Westover, Yuma county, Yuma.

"County committees are all well organized and established and ready to do the work which will be a credit to the state. The success of the loan depends not entirely upon the effort of the state and county chairmen, but upon the continued help and support of every worker down to the smallest possible district. Fortunately, indeed, are we in Arizona to have so many willing workers who are anxious at all times to do their share in carrying on this patriotic duty.

"While urging the people to invest heavily in Liberty bonds, it is my duty to also urge that every subscriber hang on to and under no possible conditions dispose of their government securities. I learn with great regret that there are some individuals who are so lacking in patriotism and truth that they are discrediting these Liberty bonds and endeavoring to secure them under false pretenses at prices which are ridiculous. I want to call the attention of every bondholder to the notice issued from Washington, and I wish that everyone could copy this notice and print it broadcast throughout the country."

Warning.
Don't be swindled out of your Liberty bond.

If anyone tries to trade you out of your Liberty bond—

Don't Trade.
If tempted to consider a trade take the trade to the nearest bank and ask the banker to check the value of the thing offered.

If you absolutely must have the money your bond is always to be sold for cash in the open market and the daily papers will tell you what it is worth.

Keep your bond until the end of the war. Go without something you need rather than sell it. Your bond is your substitute on the fighting front. To part with it takes you out of the fight.

Instead of selling the bond you own buy another one to keep the first one company.

Liberty bonds are the best security on earth today.

They are the promise of the United States government to pay you interest twice a year and to pay the face value of the bonds when due. Their safety is the reason they carry a low rate of interest. Detach each coupon on the date it bears, take it to a bank and deposit it to your account, or draw the cash value.

Register your bonds and keep them where they cannot be lost, stolen or destroyed. Go to a bank for information—many banks offer facilities for safe keeping of bonds. To lose an unregistered bond is the same as to lose that amount of money.

If any one purchaser is in doubt about his holding surely it will not be difficult to ascertain the value of the security he holds. Call on the county chairman for your county, or see the publicity man for your community. Read the warning printed above and ask the banks about the value of Liberty bonds.

Volunteers are needed to carry on the big work, which will start on September 28, and each county chairman is waiting and willing to hear from friends in his county who are willing to assist.

The good news which has reached the country telling of the splendid offensive launched by American troops for the cause of liberty and democracy will surely stimulate local people to a vigorous campaign which will make the subscription for Liberty bonds in Arizona read like a march on Berlin.

NATIVES OF INDIA INSPECTING VALLEY

Five turbaned heads have been hobnobbing about the streets of Phoenix the past few days. They are the heads of Eser Singh and party, here from the imperial valley to inspect the great valley of the Salt with a view to starting a colony of natives of India in this favored clime.

The five, all born in India, came over from the imperial valley in their auto and at once hit upon the plan of storing their car in James G. Simpson's garage at 229 East Adams street from which headquarters they have been taking runs into the country, looking over land. It seems likely that they will buy land in the Chandler section.

Eser Singh is greatly enthused by the Salt River valley, which he says he believes the finest valley in the world for agricultural purposes.

There will be no more sending of copper miners from Arizona to work in mines of other states. This order has come to the Federal Employment agency and so the batch of men sent to join the 35,000 working in Virginia in the big construction camp there probably include all who will go forward from this state during the war period.

Copper is one of the prime essentials in the war and the government will do nothing which will in any way curtail its production. Since Arizona is the greatest copper producing section it is the desire of the government to keep all the copper miners in the state and not only to keep them here but to keep them at work.

Of course the federal bureau will still consider the cases of ordinary laborers but not those of skilled miners.

COPPER MINERS TO BE KEPT IN STATE

There will be no more sending of copper miners from Arizona to work in mines of other states. This order has come to the Federal Employment agency and so the batch of men sent to join the 35,000 working in Virginia in the big construction camp there probably include all who will go forward from this state during the war period.

Copper is one of the prime essentials in the war and the government will do nothing which will in any way curtail its production. Since Arizona is the greatest copper producing section it is the desire of the government to keep all the copper miners in the state and not only to keep them here but to keep them at work.

Of course the federal bureau will still consider the cases of ordinary laborers but not those of skilled miners.

YOM KIPPUR, GREAT HEBREW FEAST DAY

One of the most important feast days in the Hebrew calendar, Yom Kippur, known as the day of atonement, begins today, September 15, which by the Hebrew calendar is Tishri 9 of the year 5679.

According to the ancient laws concerning the observance of Yom Kippur, it was a day devoted to worship, on which all manner of work was forbidden; abstention from food, from drink and pleasure commanded; and so long as the temple stood, during the post-exilic period, a long sacrificial service was gone through.

At the present time the day is kept by fasting from sunset of the 9th of Tishri, September 15, to sunset of the 10th of Tishri, September 16, and by services in the evening and all day. An important part of the service is the recital of the service of the temple, as handed down by tradition.

In Phoenix the day will be observed with a service at K. of P. hall at 7:30 o'clock on Sunday evening and again at the same place the next morning at 8:30 o'clock.

UP TO OLD TRICKS
Gundeloupe Marino, who completed a jail sentence yesterday for smoking and having marahua in his possession, was arrested again early last night by Policeman Strathy and charged with having marahua in his possession. When arrested he was talking through the bars of the jail with women inside and Strathy says appeared to be under the influence of the drug.
